

# CLD Standards Council Scotland (CLDSC) Response to COVID

# Practice Placement Guidance for CLD Approved FE and HE Institutions <u>Academic Year 2021-2022</u>

#### 1. Introduction

This guidance is in response to the disruption to delivery of CLDSC approved programmes caused by the current COVID (Coronavirus) outbreak. Due to these exceptional and rapidly changing circumstances, this guidance is intended to manage and minimise disruption to CLD students attending Scottish Further Education Institutions (FEIs) and Higher Education institutions (HEIs) whilst seeking to ensure that the quality of CLD learning programmes is not compromised.

This guidance applies to academic year 2021 – 2022, while restrictions to mitigate the COVID crisis are in place The CLDSC has prepared this guidance as part of Joint Education and Training Standards (JETS) forum which encompasses all CLD (or equivalent) Approval and Professional Bodies<sup>1</sup> across the United Kingdom. Working collaboratively on the preparation of these guidelines ensures that the benefits of mutual recognition remain in place and are not jeopardised. The guidance is reviewed regularly to take account of changes from government/other stakeholders.

### 2. Principles

In the light of the ongoing COVID pandemic, guidance from Quality Assurance Agency (QAA)<sup>2</sup>, and discussion with colleagues across the UK, this guidance and any measures taken by HEIs/FEIs for the mitigation of disruption to students' learning and practice as a result of Coronavirus should be underpinned by the following principles:

- Ensuring 'no detriment' to students on end of year activity
- Avoiding 'compound disadvantage' for learners, in terms of catching up on placement hours alongside academic and wider professional studies
- Trusting the professional judgement of programme teams in institutions offering professional qualifications in CLD
- Identifying alternative measures for evidencing competence
- Equipping staff and students for digital working
- Listening to the student experience

## 3. Meeting Professional Standards in CLD

Regardless of COVID restrictions, it is essential that students graduating from approved CLD programmes adhere to the values of CLD, Code of Ethics, CLD Competences, can demonstrate and apply the National Occupational Standards, and ultimately are fit to practise. We invite educational providers to be innovative in assessment where restrictions make it difficult to assess in placement settings.

Requirements for placement supervision should continue to be met during periods of COVID restrictions. Individual supervisors/students may conduct supervision sessions via online platforms rather than in face to face meetings.

We expect that the arrangements for the assessment of professional practice/fieldwork will remain the same, though face to face supervision and 3-way meetings may be replaced by online sessions. Where practice has moved from face to face to digital delivery, we expect supervisors and, where appropriate, fieldwork tutors still to observe the student in their practice and give feedback.

We understand that the current arrangements have made it difficult for some supervisors who have been assigned to other duties to provide end of placement assessment reports. Where this occurs, it is expected course teams will use professional judgement to make decisions about the quality of a student's practice, taking account of their knowledge of the student, previous placements, 3/4-way meetings and any indications the supervisor may be able provide.

## 4. Approaches to Teaching & Learning and Structuring of Programmes

With respect to on-line learning, which may be beneficial as part of a package of blended learning, it is essential that HEI/FEIs have means to confirm engagement and ensure that students fully and actively participate in interactive dialogue with lecturers and their peers.

A briefing on digital youth work has been produced through JETS and contains useful guidance on digital approaches. It is available here. This guidance will also be of use to those practising in adult learning and community development.

We accept that simulation exercises may be used to complement and further examine practice-based learning, however we do not encourage institutions to use simulation exercises to substitute for face to face professional practice, as we believe it is difficult to replicate real CLD practice situations.

Some institutions may have changed the timing of certain modules in their programmes. As long as this fits within the institution's own programme design and assessment strategy CLDSC is content for institutions to use professional judgement in this matter. However, forward-loading of placements may prove too big a strain for some providers, given that many organisations may not be fully operational for some time to come. We encourage institutions to continue to engage in dialogue with placement providers in accommodating students on placement.

### 5. Professional Practice Requirements

Professional practice is a pre-requisite of achieving a professional qualification in CLD. CLDSC Professional Approval Standards<sup>3</sup> set out minimum levels of assessed professional practice. We appreciate that COVID restrictions may present considerable difficulties in achieving these, both for CLD placement providers and for students.

## CLDSC COVID Guidance recap:

**For academic year 2019/20,** this focussed on completion of the academic year and, with the exception of Post-Graduate students, students were afforded a 12.5% reduction in assessed practice hours.

For the 2020-21 academic year, in order to avoid compounding disadvantage for students, it was agreed through the JETS Approvals group that a flexible reduction of up to 25% in placement hours be granted across the full length of any programme provided that students have gained a consistent pass in previous practice assessments (where applicable) and are considered fit to continue practising. The aim was still for students to complete 100% of required placement hours and activities as normal.

## Normal hours relating to practice placement (updated Aug 2021):

Degree/ Programme Type	SCQF LEVEL	SCQF Credit Points	Total Notional hours of study across the full length of the programme	Minimum Supervised Practice hours requirement across the full length of the programme
PDA	6	28	280	112
HNC	7	96	960	240
ВА	9	360	3600	1440 across the
BA (Honours)	10	480	4800	whole of the programme (3 or 4 years)
Post Graduate Diploma (minimum 1 academic year of full- time study)	11	120	1200	480 across the whole of the programme
Masters (minimum 1 academic year of full-time study)	11	180	1800	

<sup>&</sup>lt;sup>3</sup> FEI Approval Process - <a href="https://cldstandardscouncil.org.uk/approval/developmental-approval-process/">https://cldstandardscouncil.org.uk/approval/developmental-approval-process/</a>
HEI Approval Process - <a href="https://cldstandardscouncil.org.uk/approval/developmental-approval-process/">Professional Approval Standards</a>

For qualifications being undertaken through the <u>SVQ</u> route, this is recognised as involving 100% practice. Work times and study arrangements will be agreed between the student and employer.

From September 2021, any continuing student (those beginning their studies prior to September 2021) must achieve a minimum of 75% of the required placement hours for study impacted by COVID, but there is an expectation that remaining placements are completed - with an explicit requirement that no student can qualify without completing a minimum 75% of validated hours. In doing so, they must evidence meeting all Learning Outcomes, the NOS and any Subject Benchmarks that relate to placement. Learners commencing their studies from September 2021 will be required to undertake 100% of the required minimum placement hours as set out in the table Normal hours in relation to practice placement (updated August 2021). This will be reviewed as the Government issues any updates on the ongoing impact of COVID.

In line with the guidance above for students beginning their studies prior to September 2021, the following revised Supervised Practice Hours should be seen as minimum requirements not as targets (students should still be encouraged to achieve the full number of practice hours) and will enable flexible distribution of placement hours across the programme, bearing in mind the importance of practice occurring alongside theoretical learning. However, if the ability to complete these hours is affected by the pandemic, the flexibility outlined below can be utilised.

	CLD Program	nme (all levels) – 100% pla	acement ho	urs		
	Placement hours can be made up of the following activities					
Activity	Support	Assessment/Evidence	Minimum required	Maximum allowed	Maximum flexible reduction	
Formal Placement	Placement Supervisor	Placement Assessment	55%			
National Professional	Self-	CLDSC PL Log				
Learning  Volunteer Activity	directed – CLDSC information CLDSC Buddy** Self- Directed	Assessor - Placement Supervisor/HE/FE Lecturer  Student Report Assessor - Placement		20%		
	CLDSC Buddy**	Supervisor/HE/FE Lecturer				
Lost placement hours due to pandemic interruption.	CLDSC Guidance	Agreement with HE/FE lecturer			25%	
Sub-totals			75% 25%			
		TOTAL		otal placer accounted	ment hours for	

For more details on how the breakdown of this can be applied to different CLDSC Approved Programmes of study, please refer to sections 2 and 3 of the Frequently Asked Questions document which support this Guidance.

CLD work undertaken through digital platforms will be considered as face to face work in the same way as actual face to face practice with learners and communities.

Practice undertaken before the student registered for their qualification programme should not be counted towards the minimum practice hours, unless such practice meets requirements of the individual educational provider's accreditation of prior learning process. Educational providers should make their own judgements on whether this can be accepted.

# 6. Guidance on Scheduled Re-approvals

If an HEI, FEI or other educational provider is closed when a scheduled approval is due to take place, CLDSC will consider extending the existing validation period for a maximum of a year at the HEI's, FEI's or other educational provider's request. In these exceptional circumstances, a request for extension must be put in writing at the earliest opportunity and addressed to: contact@cldstandardscouncil.org.uk and cc to susan.bisset@cldstandardscouncil.org.uk

# 7. Guidance on New Programmes in the Professional Approvals route

For new programmes the CLDSC Approvals Panel considers it a necessity to meet with the relevant HEI personnel and stakeholders to inform them of the outcome. If a scheduled panel cannot take place in person because the HEI is closed or travel is prohibited, a virtual meeting process will be agreed and the submission will remain subject to approval until full approval sign off by CLDSC Approvals Committee has been gained. The timescales for this process will be agreed with each HEI individually.

#### 8. The Issue of Further Guidance

The CLDSC recognises that there is continuing uncertainty with regards to the situation that is developing as COVID spreads and mutates. With the situation being fluid and contingent upon official guidance from Scottish Government, UK Government and Public Health Scotland, this guidance will be reviewed periodically and if required any updated information will be issued in a timely manner.
